

## Fellowship Trained Pediatric Radiologist – Seattle, Washington

[Specific to each position]

Radia is seeking a board-certified/board-eligible pediatric radiologist to join our practice in Seattle, Washington. The position is 7 days on/7 days off covering an overnight shift from a workstation in the radiologist's home. While the position offers enough pediatric radiology to meet CAQ requirements, it is not 100% pediatric radiology and therefore an interest in adult/general radiology is necessary. There will be limited procedural call for urgent pediatric procedures including air/barium enema.

This is a Shareholder Track position.

[About Us]

Radia is one of the most progressive and rapidly growing radiology groups in the nation, and the largest 100% physician owned and operated practice. Our team of nearly 200 board-certified radiologists, with specialty training in everything from Mammography to Neuroradiology and Musculoskeletal to Interventional, provides more than 50 hospital and specialty clinic partners throughout the Northwest with on-site radiology coverage and interpretations.

Radia offers a robust financial package including 401k with employer matching funds, profit sharing, competitive salaries, and expense packages for continuing medical education. We provide a mentoring program to support and promote professional acuity and leadership skills.

[General Job requirements]

Radia is looking for candidates who possess the following essential characteristics: exceptional diagnostic skills and technical competence, and a desire to work for the good of the practice. Respect across the entire spectrum of individuals with whom we interact is a must.
