

Body/General Imager – Greater Seattle Area, Washington

[Specific to each position]

Radia seeks a Body/General Imager to work in the Greater Seattle Area. Candidates need to be comfortable reading a broad range of exams including plain films, body CT and MR, and ultrasound including obstetric and vascular studies. Desired procedural skills include GI fluoroscopy, thoracentesis, paracentesis, thyroid FNA, and large joint injections. A fellowship in Body Imaging is preferred.

This is a Shareholder Track position.

The position will be predominantly weekday daytime shifts; however, some afternoon/evening and weekend shifts will be needed. Average 10 vacation weeks per year.

[General Job requirements]

Radia is looking for candidates who possess the following essential characteristics: exceptional technical competence, productivity and a desire to work for the good of the practice. Respect across the entire spectrum of individuals with whom we interact is a must.

[About us]

Radia is one of the most progressive and rapidly growing radiology groups in the nation, and the largest 100% physician owned and operated practice. Our team of nearly 200 board-certified radiologists, with specialty training in everything from Mammography to Neuroradiology and Musculoskeletal to Interventional, provides more than 50 hospital and specialty clinic partners throughout the Northwest with on-site radiology coverage and interpretations.

Radia offers a robust financial package including 401k with employer matching funds, profit sharing, competitive salaries, and expense packages for continuing medical education. We provide a mentoring program to support and promote professional acuity and leadership skills.

Successful candidates will have the opportunity to work with cutting edge technology, 24/7 subspecialty coverage and our 3D lab for advanced post processing and are supported through our distributed reading network.
