This is a Swing Shift position with afternoon/evening hours and a 7 days on/7 days off schedule. The position offers up to 26 weeks off/year.

## ABOUT RADIA

One of the most important decisions any physician makes is the practice they join.

Radia PS is a 100% physician owned and managed practice, dedicated to the care of patients.

We are seeking physicians to join Radia in our partnership track.

Physicians will be reviewed by the Board of Directors for partnership recommendation to the shareholders 12- 24 months from joining, based on experience.

Current partner professional side only (W2) cash compensation is between \$350k - \$700k/year, depending on how much you work, and has been increasing for the last 3 years. Average partner cash compensation is currently ~ \$450k, this is in addition to profit sharing, malpractice / health insurance, CME and related. Total partner average compensation is \$500k+.

A major difference between Radia and many practices, we have consciously chosen to keep partner buy-in low compared with other practices, we want to retain good physicians.

In addition to proprietary workflow software and related technology, we have implemented machine learning in our environment.

Radia is one of the very few practices in the country with the scale, technology and ownership structure to implement machine learning in a way that benefits patients and radiologists, not investors.
