

## General Imager– South Sound Region

### ABOUT THE POSITION

Our Olympia-based team seeks a colleague comfortable covering a broad range of studies to include plain radiographic work including trauma, CT, MR, US including first trimester OB, Vascular, basic nuclear imaging and basic breast imaging. Procedural skills include GI fluoroscopy and experience in or willingness to learn minor needle procedures such as joint and spine injections, lumbar puncture, myelography, paracentesis, thoracentesis, and ultrasound guided breast and thyroid biopsy.

Our practice provides Professional Services to six hospitals nearby hospitals with multiple clinic locations. We also operate a state-of-the-art outpatient imaging center with an ACR-accredited Breast Center of Excellence. Most of shifts occur in the Olympia/Centralia area.

This Shareholder Track position will be a combination of day and swing shift (shared evening and weekend) rotations. Radia is looking for candidates who possess the following essential characteristics: exceptional technical competence, productivity and a desire to work for the good of the practice. Respect across the entire spectrum of individuals with whom we interact is a must.

### ABOUT RADIA

One of the most important decisions any physician makes is the practice they join.

Radia PS is a 100% physician owned and managed practice, dedicated to the care of patients.

We are seeking physicians to join Radia in our partnership track.

Physicians will be reviewed by the Board of Directors for partnership recommendation to the shareholders 12- 24 months from joining, based on experience.

Current partner professional side only (W2) cash compensation is between \$350k - \$700k/year, depending on how much you work, and has been increasing for the last 3 years. Average partner cash compensation is currently ~ \$450k, this is in addition to profit sharing, malpractice / health insurance, CME and related. Total partner average compensation is \$500k+.

A major difference between Radia and many practices, we have consciously chosen to keep partner buy-in low compared with other practices, we want to retain good physicians.

In addition to proprietary workflow software and related technology, we have implemented machine learning in our environment.

Radia is one of the very few practices in the country with the scale, technology and ownership structure to implement machine learning in a way that benefits patients and radiologists, not investors.

### ABOUT THE SOUTH PUGET SOUND AREA

Olympia is Washington's capitol city providing outdoor enthusiasts with limitless adventures. Although it has the feel of an eclectic Pacific NW small town, the South Sound region has amenities of a much bigger city offering a

vibrant cultural scene. It is the cradle of the "Seattle Sound," the home of a nationally recognized liberal arts state university as well as a highly regarded Catholic university, and is the host of numerous community festivals. The South Sound Region, to include Olympia and Tacoma, provides easy access to theater, opera, and excellent restaurants.

In the Puget Sound, you can live on the water or in an evergreen forest. You can be at the Washington coast or in the Cascade Mountains on a day trip. Fishing, boating, kayaking, skiing, biking, golfing, hiking, and mountaineering are all world class, and just out your back door. Olympia is located within 2-3 hours of three national parks - Olympic, Mount Rainier, and North Cascades - for day or weekend trips. Just an easy trek down the highway from two of the best large cities in America--Seattle and Portland, Olympia is ideally situated to take advantage of all that those cities offer, but with a much more affordable cost of living. If you are looking for an even more cosmopolitan get-away, beautiful Vancouver, British Columbia is just three hours away.

Olympia also has very highly rated schools, one of the lowest unemployment rates in the country, and many healthy neighborhoods in which to raise a family.
