

Breast / General Radiologist – South Sound Region

ABOUT THE POSITION

Radia seeks a Breast / General radiologist to work in the beautiful South Puget Sound region. This is a unique opportunity to work in a small practice setting as part of the nation's largest 100% physician owned and operated radiology group.

We are seeking a board certified or eligible radiologist with fellowship training and / or fellowship equivalent experience in breast imaging to join our team. This position offers a schedule with approximately 75% breast imaging shifts. Preferentially the candidate should be experienced in all modalities of breast imaging and intervention, including tomosynthesis and MRI.

Our Olympia region includes six hospitals and regional clinic locations. We also operate a state-of-the-art outpatient imaging center with an ACR-accredited Breast Center of Excellence.

This is a partner track position with daytime and shared evening shifts. We are looking for a highly motivated radiologist with a passion for patient care to join our experienced team of local physicians.

ABOUT RADIA

One of the most important decisions any physician makes is the practice they join.

Radia PS is a 100% physician owned and managed practice, dedicated to the care of patients.

We are seeking physicians to join Radia in our partnership track.

Physicians will be reviewed by the Board of Directors for partnership recommendation to the shareholders 12- 24 months from joining, based on experience.

Shift Compensation

- First year guaranteed salary \$392,900 with 10 weeks off
- First year salary with maximum incentive pay is \$432,000
- Shareholder compensation for this for this position is \$470,000
- Additional income can be generated by picking up additional shifts
- Profit sharing, malpractice, health insurance, and generous CME are offered

A major difference between Radia and many practices, we have consciously chosen to keep partner buy-in low compared with other practices, we want to retain good physicians.

In addition to proprietary workflow software and related technology, we have implemented machine learning in our environment.

Radia is one of the very few practices in the country with the scale, technology and ownership structure to implement machine learning in a way that benefits patients and radiologists, not investors.

ABOUT THE SOUTH PUGET SOUND AREA

Olympia is Washington's capitol city providing outdoor enthusiasts with limitless adventures. Although it has the feel of an eclectic Pacific NW small town, the South Sound region has amenities of a much bigger city offering a vibrant cultural scene. It is the cradle of the "Seattle Sound," the home of a nationally recognized liberal arts state university as well as a highly regarded Catholic university, and is the host of numerous community festivals. The South Sound Region, to include Olympia and Tacoma, provides easy access to theater, opera, and excellent restaurants.

In the Puget Sound, you can live on the water or in an evergreen forest. You can be at the Washington coast or in the Cascade Mountains on a day trip. Fishing, boating, kayaking, skiing, biking, golfing, hiking, and mountaineering are all world class, and just out your back door. Olympia is located within 2-3 hours of three national parks - Olympic, Mount Rainier, and North Cascades - for day or weekend trips. Just an easy trek down the highway from two of the best large cities in America--Seattle and Portland, Olympia is ideally situated to take advantage of all that those cities offer, but with a much more affordable cost of living. If you are looking for an even more cosmopolitan get-away, beautiful Vancouver, British Columbia is just three hours away.

Olympia also has very highly rated schools, one of the lowest unemployment rates in the country, and many healthy neighborhoods in which to raise a family.
