

Women's Imager/Body Imager – Olympic Peninsula

[Specific to each position]

Radia is looking for a diagnostic Radiologist with experience in breast imaging. Mammography will be performed exclusively for 2 of the 3 weeks' rotation. The other week will be in a general radiology seat. Comfort with simple non-mammographic needle procedures required. Tertiary back-up is available 24/7 from Radia.

Successful candidate will work closely with a small, collegial group who are scheduled 3 weeks on and 1 week off (4:1 weekend call). This opportunity promises a sense of job satisfaction, state of the art equipment and all of the accoutrements that a well-established physician lead practice can offer.

Olympic Medical Center (OMC) is a progressive, up-to-date facility operating at 80 beds. All mammography equipment is 3D including stereo biopsy. A superb medical staff of 125 offers a high standard of care.

[General Job requirements]

Radia is looking for candidates who possess the following essential characteristics: exceptional technical competence, productivity and a desire to work for the good of the practice. Respect across the entire spectrum of individuals with whom we interact is a must.

This is a Shareholder Track position.

Radia is one of the largest and most progressive radiology groups in the nation. Our team of more than 160 board-certified radiologists, with specialty training in everything from Mammography to Neuroradiology and Musculoskeletal to Interventional, provide more than 30 hospital and specialty clinic partners throughout the Northwest with on-site radiology coverage and interpretations.

We provide a mentoring program to support and promote professional acuity and leadership skills.

Radia offers a rich work/life balance with a minimum of 10 weeks of vacation each year. We have a robust financial package including 401k w/ employer matching funds, profit sharing, competitive salaries and expense packages for continuing medical education.

Successful candidates will have the opportunity to work with cutting edge technology, 24/7 subspecialty coverage and our 3D lab for advanced post processing and supported through our distributed reading network.

[Location]

This position is based in Port Angeles, Washington and recently rated #2 on America's Best Towns in Outside Magazine <http://www.outsideonline.com/2006426/americas-best-towns-2015>.

Port Angeles is a great place to live – offering outdoor lifestyle, affordable cost of living and easy access to desirable attractions. It is located on the beautiful Olympic peninsula, 70 miles west of Seattle.
