

Nighthawk Imager – Seattle, Washington

2 weeks on/4 weeks off

[Specific to each position]

Radia is looking for imagers who are fellowship trained in Body Imaging or Emergency Imaging. Candidates need to be comfortable reading a broad range of plain radiographic studies to include trauma, trauma CT, Body CT, Body MR, Nuclear Medicine and US including first trimester OB and Vascular.

Nighthawk position is 2 weeks on/4 weeks off. Position offers up to 26 weeks off/year

[General Job requirements]

Radia is looking for candidates who possess the following essential characteristics: exceptional technical competence, productivity and a desire to work for the good of the practice. Respect across the entire spectrum of individuals with whom we interact is a must.

This is a Shareholder Track position.

[About us]

Radia is one of the largest and most progressive radiology groups in the nation. Our team of more than 160 board-certified radiologists, with specialty training in everything from Mammography to Neuroradiology and Musculoskeletal to Interventional, provide more than 30 hospital and specialty clinic partners throughout the Northwest with on-site radiology coverage and interpretations.

We provide a mentoring program to support and promote professional acuity and leadership skills.

Radia offers a rich work/life balance with a minimum of 10 weeks of vacation each year. We have a robust financial package including 401k w/ employer matching funds, profit sharing, competitive salaries and expense packages for continuing medical education.

Successful candidates will have the opportunity to work with cutting edge technology, 24/7 subspecialty coverage and our 3D lab for advanced post processing and supported through our distributed reading network.
