

Fellowship Trained Pediatric Radiologist – NightHawk Anywhere in the United States

ABOUT THE POSITION

Radia is hiring a board certified/board eligible Pediatric Radiologist to join our Seattle-based practice.

You can work from home, anywhere in the United States.

This NightHawk (10 p - 7a (PDT / PST)) job offers scheduling and income flexibility.

Coordinating your 7-day cycles with your dyad or triad partner/s will provide flexibility in meeting your mutually agreed schedules. In a sense, while being part of the largest 100% physician owned practice in the United States, you have the scheduling control and flexibility of a 2-3 person practice.

The position offers enough pediatric radiology to meet CAQ requirements, however it is not 100% pediatric radiology and includes adult/general radiology.

This is a shareholder track position.

If you are interested, please submit CV and cover letter to jobs@radiax.com.

ABOUT RADIA

One of the most important decisions any physician makes is the practice they join.

Radia PS is a 100% physician owned and managed practice, dedicated to the care of patients.

We are seeking physicians to join Radia in our partnership track.

Physicians will be reviewed by the Board of Directors for partnership recommendation to the shareholders 12- 24 months from joining, based on experience.

Compensation for this Position:

- First year guaranteed compensation, 34 weeks off, is \$295,800.
- First year compensation, 34 weeks off and maximum incentive pay, is \$324,200.
- Shareholder compensation, 34 weeks off, is \$343,200.
- First year guaranteed compensation, 26 weeks off, is \$430,800.
- First year compensation, 26 weeks off and maximum incentive pay, is \$474,100.
- Shareholder compensation, 26 weeks off, is \$519,600.
- You can increase your income by working additional shifts, as mutually agreeable.
- Profit sharing, malpractice, health insurance, and generous CME.

Radia has consciously chosen to keep partner buy-in low compared with other practices, we want to retain good physicians.

In addition to proprietary workflow software and related technology, we have implemented machine learning in our environment.

Radia is one of the very few practices in the country with the scale, technology and ownership structure to implement machine learning in a way that benefits patients and radiologists, not investors.
