

General/Body with Procedures – Olympic Peninsula

ABOUT THE POSITION

This is a unique opportunity to work in a small practice setting as part of the nation's largest 100% physician owned and operated radiology group.

We are seeking a general / body radiologist with light interventional skills to be based at Olympic Medical Center in Port Angeles, located on the pristine Olympic Peninsula in Washington State.

Olympic Medical Center (OMC) is a progressive, 67 bed hospital with a dynamic medical staff of 125 providers. Radiologists enjoy state-of-the art imaging equipment and support strong relationships with referring clinicians.

Procedural coverage needs include CT/US guided biopsy and drainage, lumbar puncture, paracentesis, thoracentesis, and joint aspiration and injection. The opportunity to develop additional procedures exists. Breast imaging / MQSA skills are not required.

This ideal work schedule includes 3 weeks on and 1 week off with 1 in 4 weekend call. Evening/overnight diagnostic interpretations are covered remotely via our internal network. Limited evening procedural call is shared among the local group.

Radia offers a competitive compensation package to include a \$25K signing bonus.

If you are interested in this position, please submit CV and cover letter to jobs@radiax.com.

ABOUT RADIA

Physicians will be reviewed by the Board of Directors for partnership recommendation to the shareholders 12- 24 months from joining, based on experience.

Compensation and Benefits:

- First year guaranteed compensation (12-13 weeks off) is \$367,000.
- First year compensation (10 weeks off) with maximum performance pay is \$449,000.
- 2018 Shareholder compensation for same schedule was \$493,000.
- Additional income potential with working additional shifts.
- Profit sharing, malpractice, health insurance, and generous CME.

A major difference between Radia and many practices, we have consciously chosen to keep partner buy-in low compared with other practices, we want to retain good physicians.

In addition to proprietary workflow software and related technology, we have implemented machine learning in our environment.

Radia is one of the very few practices in the country with the scale, technology and ownership structure to implement machine learning in a way that benefits patients and radiologists, not investors.
