

Vancouver/Portland MSK Posting

Radia's Vancouver-based practice seeks a colleague who has completed a Musculoskeletal Radiology fellowship. The group model is one of subspecialty expertise coupled with the ability to cover general radiology. Candidate needs to be comfortable reading and performing MSK-based studies in addition to DR, body CT, general US, and vascular imaging. Required procedural skills include GI fluoroscopy, musculoskeletal ultrasound, and arthrography. Opportunities for practice building in areas of interest exist.

This Shareholder Track position will be a combination of day and swing shift (shared evening and weekend) rotations (No nighthawk or mammography responsibilities).

This position will be primarily based at a hospital licensed for 450 beds, with an average daily census of 250. There is an advanced level 2 trauma center with 24/7 trauma surgeons/surgical hospitalists. The ED is busy, with 110,000 visits per year (including urgent care). The work is shared using the Radia enterprise dashboard, allowing the opportunity to see large volumes of interesting cases without being understaffed or being in the uncomfortable position of interpreting an exam that would benefit from a subspecialty read.

[General Job requirements]

Radia is looking for candidates who possess the following essential characteristics: exceptional technical competence, productivity and a desire to work for the good of the practice. Respect across the entire spectrum of individuals with whom we interact is a must.

[About us]

Radia is one of the most progressive and largest radiologist owned groups, without being influenced by venture capital or private equity backing. Our team of almost 200 board-certified radiologists, with extensive subspecialty training, provides final read coverage to more than 50 hospital and specialty clinic partners throughout the Northwest. There are currently 18 fellowship trained MSK radiologists in the Radia enterprise.

Radia offers a rich work/life balance with a minimum of 10 weeks of vacation each year. We have a robust financial package including 401k w/ employer matching funds, profit sharing, competitive salaries and expense packages for continuing medical education. We provide a mentoring program to support and promote professional acuity and leadership skills.

Successful candidates will have the opportunity to work with cutting edge technology, 24/7 subspecialty coverage and our 3D lab for advanced post processing and are supported through our distributed reading network.

ABOUT VANCOUVER

Vancouver, WA sits on the north bank of the Columbia River across from Portland, OR and is one of the largest suburbs of Portland, within Clark County, WA, population 460,000. Ease of access to both city and outdoor activities abound. Some key factoids/perks:

- NO state income tax
- Excellent public-school options
- Short commute to work

- America's hippest city: <https://www.seattletimes.com/seattle-news/americas-hippest-city-is-vancouver-washington/>
- 4 seasons without excessive cold or hot weather
- All children's and adult sports that a large city would be expected to have
- Excellent skiing less than 2 hours away (Mount Hood Meadows, Timberline)
- Easy access to Portland Airport (PDX) even during rush hour.
- Plenty of brewpubs, wineries
- Numerous outdoor activities: biking, hiking, ocean/river fishing, gardening
- Eclectic Portland is a 5-20 minute drive, or a bike ride across the bridges
- Region is well known for foodies
- Close proximity to the Columbia River Gorge
- Wineries of the Willamette Valley
- Oregon and Washington coasts less than 2 hour drive
